Required Forms

*Must be emailed to Gina Lyman by **5 pm, February 6, 2026**.

It is the responsibility of the chapter advisor to collect **EACH** of the required forms from their students and turn in the Possession of Documents and Assumption of Risk forms by the given deadline. The advisor must also keep a copy of **ALL** required forms on hand during SLC.

Inquiry Process

At any time during a competitive event, if a competitor feels a major rule infraction has occurred, the competitor should immediately bring it to the attention of event management.

Once an event is completed, the decision of the judges is final. The inquiry process will not reverse any decision made by judges but allows Competitive Events to examine what happened in an event from the competitor's perspective, review how the event ran, and fix that which can be corrected.

The form must be filled out and turned into the State Advisor no later than two hours after the conclusion of the event. Inquiry forms will be available for competitors to request during SLC.

Event Finalist Process

Certain competitive events consist of two rounds. Round one is an online, multi-choice test of knowledge and understanding, and round two is a performance/skill. Results are posted on the first day of the conference. Depending on the number of competitors in an event, only top-scoring competitors may proceed to round two.

Tips for Success

Tips for CE Success

- Review the rubrics. Ensure you are following the rubrics step by step and addressing all items on which you will be evaluated.
- Practice with a live audience and with someone who will be honest with you about areas of strength and areas to improve.
- Videotape your presentation and watch it to see where you can improve.
- Double check all formatting requirements.
- Prior to submitting anything, review it one last time against guidelines. Often times points are lost on items that could have easily been corrected.
- For writing events, work on succinct and clear thesis statements.
- Have confidence. You have done the work. Now is the time to be proud and have fun.
- Show enthusiasm for the topic.
- In presentations, be more conversational and less scripted. Don't read directly from notes.
- Be bold and creative in your presentations. Do something other people aren't doing.
- Speak loudly and clearly.
- Verbalize in a confident and concise manner.
- Use the verbiage from the guidelines to create your portfolio so it is easier for judges to follow.
- PRACTICE, PRACTICE, PRACTICE!
